

ABSTRACT OF THE DISCLOSURE

There is provided a fibrous absorbent article for absorbing body fluids. The article includes a fibrous material suitable for absorbing the body fluids, and one or more all-natural, liquid malodor counteractant materials disposed within the fibrous material to absorb, neutralize, suppress, and/or eliminate odors associated with the body fluids.

A portion of the disclosure of this patent application contains material which is subject to copyright protection. The copyright owner has no objection to the facsimile reproduction by anyone of the patent disclosure in exactly the form it appears in the Patent and Trademark Office patent file or records, but otherwise reserves all rights.
